DATA STANDARDS AND QUALITY CONTROL UNIT

2010 DATA CHANGES ALERT

2010 Reporting Software

REMINDER!

Cancer reporting software for 2010 must be approved by the CCR. Software vendors must submit test files to the CCR for testing. Upon successful testing completion, the list of approved software vendors for 2010 will be posted on the CCR web site www.ccrca.org. Only facilities receiving full software approval for 2010 may transmit cases entered after the installation of CSv2 software. Additionally, each time a hospital or vendor changes the registry software, it must again demonstrate its ability to meet these standards by submitting test files to maintain approval status.
